# Inspiration

The team's remarkable journey, marked by perseverance and innovation, has been a source of inspiration for healthcare professionals like myself. They've exceeded the traditional 12-year milestone for charitable recognition ("Ek Tap"), demonstrating outstanding commitment.

From its inception, the hospital has expanded its services significantly, including establishing an urban health center and a well-equipped pathology laboratory, imaging department, and various surgical departments. Their outreach extends to rural communities, providing crucial services to underserved populations.

Key milestones include introducing laparoscopic surgery, expanding facilities, community support during the Covid-19 pandemic, and hosting conferences like Femicon's 'Dhaarini,' focusing on women's health. Plans for a new, advanced hospital building with 150 beds underscore the team's unwavering dedication to serving society.

On behalf of Dr. Babasaheb Ambedkar Vaidyakiya Pratishtan, I extend our heartfelt best wishes to the entire team at the Dr. Hedgewar Institute of Medical Sciences & Research.

---

**Dr. Ashwinikumar Tupkary**

Secretary,

Dr Babasaheb Ambedkar Vaidyakiya Pratishtan,

Ex-CEO & Founder Member

Dr Hedgewar Rugnalay, Chatrapati Sambhajnagar, Maharashtra

Expecting to start a family, my dreams were interrupted by cancer, a sudden and fearsome guest. The ominous word "cancer" shook me upon discovering a lump in my breast. The ensuing journey was an unsettling and unknown path, forcing our family into an unwelcome war—between the future and the present, our kids or me.

This challenging road involved numerous doctor visits, tests, and treatments. After nearly 15 consultations, our search ended at Hedgewar Hospital, standing as our Krishna, guiding us with hope through the chemotherapy that left me sick and weakened.

Supported by my husband, mother-in-law, and sister-in-law, I confronted this frightening battle. Dr. Yashodhan Bodhankar, a crucial guide at Hedgewar Hospital, played a pivotal role. Amid the pregnancy fears of not being there for my baby, Dr. Pallavi Shete's counselling and gynaecological expertise sustained me.

Emerging triumphant against cancer, my son's birth became a symbol of hope and resilience. Our family, now closer than ever, recognised that even in life's adversities, you can fight back. Life is a beautiful struggle, and I now treasure every moment. My arduous journey with cancer taught me to value life finding hope even in the darkest times, We won this Mahabharat.

The Follow up Magic

Babarao Dhawak, age 66, from Kajna village, Tq. Nandgaon district Amravati, shared his experience, In rural areas, it is very common to ignore ordinary health issues by bearing the pain. Even though he had prior kidney issues, he also did the same thing in case of back pain and fever. Aggravating the situation made him approach Dr. Hedgewar Hospital, Amravati, remembering past pleasant treatment experiences along with an observation that a patient is never held back here for money. Treatment initiated under the supervision of Dr. Mansi Kavimandan, starting with lumber puncture. After investigations, the T.B. was declared. After a small course of accurate treatment, he was relieved and went home contented.

He also mentioned that people from his village had lost all hope for his survival. However, Dr. Bodhankar and his teams positive and energizing approach during his primary consultation helped restore his faith and determination to fight against the illness.

Dhavam's treatment cost INR 35,690, but our PPF Poor Patient Fund lowered it to INR 16,409, ensuring his care without financial strain. We take pride in the steps we are taking to encourage Indian rural communities to prioritize health through our outreach and follow-up infrastructure.

# Glimpse 2023

---

In 2023, Dr. Hedgewar Hospital (DHH, Amravati) assumed crucial responsibilities in addressing women's health issues. Workshops led by specialists Dr. Shete and Dr. Bansod emphasized cervical cancer prevention through HPV vaccination and screenings. Collaborating with Social Work College, DHH educated adolescent girls under Dr. Pallavi Shete's guidance, stressing menstrual hygiene as a community responsibility. Supported by individuals like Anita Kulkarni and Swati Padhye, the Women's Health Camp addressed menstrual concerns among college girls. Gynecologists Dr. Rani Nimbalkar and Dr. Tanya Deshmukh provided tailored guidance on menstrual health and medical consultations, showcasing the hospital's commitment to societal responsibilities. Principal Dr. Avinash Mohare and professors Jayashri Vaishnav and Mamta Pandey-Lenge endorsed the effort, highlighting a shared obligation to raise awareness and empower women. These initiatives underscored DHH's dedication to addressing vital women's health concerns within the community.

## Awareness & Camps

# Visits & Gatherings

Dr. Hedgewar Hospital (DHH), led by the Janakalyan Seva Sanstha, celebrated a decade of community healthcare, highlighting its commitment to Health, Service, and Support. The event showcased achievements like "Sneh Milan," fostering community engagement. Architect Shanatanu Rane's contribution, a dialysis machine for the kidney care unit and architectural services for a 150-bed expansion, exemplifies community-professional collaboration. The Angiras Foundation supported DHH's research for anaemia and donated funds for medical equipment. Dr. Anjali Modi of the Shah family, once associated with the hospital and now in Hyderabad, continued their support by generously donating Rs. 100,000, emphasizing shared goals of healthcare accessibility and quality. This collective effort reflects a holistic approach to healthcare, blending community involvement, professional expertise, and philanthropic support, ensuring a sustainable and impactful healthcare ecosystem for the region's residents.

We conducted a Bold Aspiration Workshop with Miss Rasika Durge to redefine our mission and vision for the forthcoming years. This engaging workshop ensured the full participation of all our staff members.

We reworked our communication by restructuring our brand with DBA.

The goal was to continually cherish our mission of "easing Healthcare" and do so while communicating our efforts with maximum clarity.

Easing Healthcare

Medical Healthcare

Outreach Healthcare

Preventive Healthcare

On April 10, 2022, amidst preparations for Shri Ram Navami, a health crisis struck our family. Mr. Vasant Fadnis, aged 95, under the care of DHH since 2021, faced worsening health due to a urethral stricture, hyperacidity, and cardiac issues. Despite home remedies, his condition deteriorated. DHH recommended his transfer due to a urinary tract blockage. Dr. Yashodhan and team conducted a successful surgery, though complications ensued. The hospital staff, including Devendraji, Vinit, and Ishwar, provided exceptional home care support. They not only offered medical care but also emotional assistance. The hospital guided us through consultations on angiography and angioplasty. Despite challenges like travel, DHH stood as a pillar of support, becoming an integral part of our extended family. Additionally, we found solace in Akshayvat, a program dedicated to outreach care for the elderly, providing invaluable support and resources during this trying time. Through Akshayvat, we witnessed a holistic approach to eldercare, further enhancing our gratitude for DHH's comprehensive services.

Mrs. Gayatri Dipak Phadnis

# Change Maker

Manish Khope, an outreach phlebotomist at Dr. Hedgewar Hospital in Amravati, is like the welcoming face of the hospital's outreach efforts. Despite facing personal challenges, he remains dedicated to his work, ensuring that patients receive prompt and hassle-free blood checkups.

Manish's journey is one of resilience and determination. Despite facing financial struggles and health setbacks, he persevered, emerging as a beacon of hope for those in need. Today, his presence is a reassuring sight for patients, symbolizing the hospital's commitment to compassionate care.

As an outreach phlebotomist, Manish's role is crucial in making healthcare accessible to all. With each blood sample he collects, he leaves a lasting impression, representing the hospital's dedication to excellence and efficiency in patient care.
